Experience

DREAMTEAM Technologies Pvt. Ltd. Jodhpur (AI & DS Intern)

Dec. 2025 - Feb. 2026

Developed an AI-based image understanding web application using Flask that generates meaningful titles and descriptions from uploaded images. Included user authentication, database-backed image storage, and an integrated chatbot within a clean and user-friendly interface.

MICROSOFT AZURE AI TRAINING(RCAT)

Nov. 2025 - Dec. 2025

SKILLS

- Python, Statistics, Probability, Exploratory Data Analysis (EDA)
- Data Cleaning & Feature Engineering
- Machine Learning Algorithms (Regression, Classification, Clustering)

Library:- Numpy, Pandas, scikit-learn, TensorFlow, Matplotlib, Langchain, FastApi, Selenium

Web-development:- Html, CSS, Flask

Tools:- Git, Visual Studio, Google-Colab, Kaggle, MYSQL, Excel

CERTIFICATES/AWARDS

Develop AI solutions in Azure, 62 Badges & 12 Trophies(Microsoft)

Mathematics for Machine Learning, Introduction to Machine Learning(GreatLearning)

Cleared Round 1 of TCS CodeVita Season 12, Python Coder Kaggle Certificate

Hacker-rank(4)):- PYTHON, C ,PROBLEM SOLVING(DSA)

Hacker-rank(3)):- C++, JAVA, **Leet-Code Problem solving(100+)**

EDUCATION

B.Tech (Jodhpur Institute of Engineering and Technology).

2023-27

Artificial Intelligence and Machine Learning

CGPA - 9.5

SENIOR SECONDARY (K. S. Public Sr. Sec. School)

2022

GRADE - 94.2

Achieved 100/100 in Mathematics 10th and 12th

PROJECTS

FLASK-BASED ML MODEL EXPLORER WITH AUTHENTICATION

- Designed a secure platform to Learning and test ML models.Integrated trained models using Google Colab + TensorFlow.
- Added user authentication and model prediction dashboard.

Agrisense

Built an AI system to detect crop diseases using CNN models and provide diagnosis with high accuracy. AI-powered chatbot for real-time farmer support, including speech interaction.

Technologies & Tools:- Technologies: TensorFlow, Keras, Flask, Python, Pandas, NumPy
